Legacy PACER Case Locator Retired

The legacy PACER Case Locator (PCL) retired in February. The updated PCL (pcl.uscourts.gov), which launched in December 2017, is now the only source for PCL access. If you use automated scripts to scrape data from the legacy PCL, consider transitioning to the new PCL application programming interface (API), available on the [Developer Resources](#) page.

For more PCL API information, check out the Q&A here: https://pacer.uscourts.gov/sites/default/files/files/PCL_API_TownHall_QAs_Dec2020.pdf

In addition, the PCL API User Guide is available here: <https://pacer.uscourts.gov/help/pacer/pacer-case-locator-pcl-api-user-guide>

New PACER, PCL APIs Available

In September 2021, the Administrative Office of the U.S. Courts (AO) released the application programming interfaces (APIs) for the PACER Case Locator (PCL) and PACER authentication. The new APIs will simplify access to PACER and PCL data for automated script users.

- PCL API: <https://pacer.uscourts.gov/help/pacer/pacer-case-locator-pcl-api-user-guide>
- PACER Authentication API: <https://pacer.uscourts.gov/help/pacer/pacer-authentication-api-user-guide>

APIs in QA

The new APIs and documentation are available in the QA environment at <https://qa-pacer.uscourts.gov>. This allows users to test scripts as part of their development life cycle process.

To use QA, you need a PACER account in that environment. If you do not have one, register for a test account at <https://qa-pacer.psc.uscourts.gov/pscof/registration.jsf>. You may skip the credit card portion of the registration, as there is no charge to search in QA. Your account will be activated overnight.

NOTE: QA is a testing site that may occasionally be unavailable due to maintenance. In addition, there may be features in QA that are not currently available in the Production environment.

Existing Authentication Endpoint

If you are an automated script user who has written authentication requests to automatically log in to PACER and/or CM/ECF, you must update these requests to meet new technical specifications and security requirements outlined in the [PACER Authentication API User Guide](#) (also available on the [Developer Resources](#) page); otherwise, your existing authentication will fail.
